

Arturo Cabrera

Frontend Developer

pixmycode@gmail.com
arturo-cabrera.com

I have 6 years of hands-on experience efficiently coding websites as a frontend developer using modern javascript technologies. I'm a fan creating seamless user experiences and creative micro interactions.

Professional Experience

Joint Medias

Frontend Developer / December 2021 - Present

- Creating websites with delightful designs and animations with modern technologies like React, JavaScript, Gatsby, CSS3, and GSAP just to mention a few.
- We have clients on the political field, our websites need to have at least "AA" compliance level.

Mescalina

Freelance Frontend Developer / November 2022 - 2024

- I create the layouts the UI/UX team provides to me. We work with clients like **Kellogg's, Pringles, Sam's Club, and Snickers.**
- I created a template to make the mockups faster using HTML, CSS, JavaScript, and C# reducing the time of a promotional website by 35%.

Medtrainer

Frontend Developer / April 2020 - December 2021

- Responsible for migrating from JavaScript/twig components to React.
- Created selenium and jest tests for every feature I added to production.
- Attention to detail when analyzing the mockups I receive from the UI/UX team and turning them into actual code.

PSL Group

Web Integrator / December 2016 - April 2020

- I automated our web and email creation process reducing the time of development by 90%. I got a company award and went to Canada to present this project.
- Responsible for making websites and email campaigns for big pharmaceutical companies like Bayern, Pfizer, Lilly, and so on with pure HTML, CSS, JavaScript, and jQuery
